

*The Alabama SBDC Procurement Program is pleased to promote the following webinar.*

The U.S. Army Corps of Engineers Engineering and Support Center, Huntsville (CEHNC) is having a virtual industry day for the Utility Monitoring and Control Systems (UMCS).

**Tuesday, April 4, 2017  
1300 hours to 1700 hours (CDT)**

Location: The Virtual Industry Day will be held at [www.webmeeting.att.com](http://www.webmeeting.att.com).

The special notice is posted already on FedBizOpps ([www.fbo.gov](http://www.fbo.gov)) site under W912DY-17-R-0014.

The U.S. Army Corps of Engineers Engineering and Support Center, Huntsville (CEHNC) is seeking qualified firms to procure and install Utility Monitoring and Control Systems (UMCS) in anticipation of awarding the fifth generation (UMCS V) of multiple Indefinite Delivery/ Indefinite Quantity (ID/IQ) contracts for the UMCS program. CEHNC anticipates awarding contracts with a four-year base ordering period and three one-year option ordering periods. The anticipated program capacity shared by all awarded contracts is approximately \$2.75 billion. The North American Industry Classification System (NAICS) code for this acquisition is 541512, Computer Systems Design Services. The small business size standard is \$27.5 million.

Pre-registration is a requirement for this event. Please contact LaShonda Smith, Business Advisor / Contract Specialist at [lashonda.smith@usace.army.mil](mailto:lashonda.smith@usace.army.mil) if you plan to attend. Please include your company name, name of attendees, and email address and phone number for each attendee. **All registrations must be received no later than 31 March, 2017.** Upon completion of registration, you will be provided access codes for the Virtual Industry Day.

The purpose of this announcement is to invite companies interested in the fifth generation (V) of multiple Indefinite Delivery/Indefinite Quantity (ID/IQ) contracts in support of the Utility Monitoring and Control Systems (UMCS) program to participate in a Virtual Industry Day. This event will allow the Government to provide valuable information to industry regarding the acquisition, answer any questions concerning the requirement and planned acquisition approach, and receive buy-in from industry. The agenda will consist of an overview of the Scope of Work, planned acquisition strategy, tips and best practices for Small Business, and a Question and Answer (Q&A) session.
