

THE UNIVERSITY OF ALABAMA\*

# Alabama Power Company New Vendor Events

There is still time to register for Clanton.

[October 10, 2017 Clanton Event Registration Link](#)

Each event is identical to the other, so no need to register for both.

The Alabama Procurement Technical Assistance Program (PTAP) proudly announces two significant upcoming events designed to provide our clients with an opportunity to learn more about Alabama Power Company (APC) and the potential to provide products and/or services to APC.

**What will be shared at each event?** – Representatives from Alabama Power Company will present the following important information:

- Overview of Alabama Power Procurement Process
- Supplier Preparation
- How to do business with Alabama Power
- Introduction of key business units and supply chain representatives

**Who should attend?** – Suppliers with: ...

- Ability to provide verifiable work history
- Active Alabama General Contractors License for construction services
- Current certificate of insurance
- Financial stability
- Business safety plan/program
- Experience Modification Rating (EMR) 1.0 or less for onsite services
- Agreement to perform drug screening and background investigations prior to onsite work
