

# How to Partner with Anniston Army Depot

*Have you ever had an opportunity to bid on a large contract, but you didn't have the facilities or labor capacity to execute it? This workshop could be the key to executing this type of contract for your business!*

This workshop begins our first of a 12 session program between the JSU-SBDC and the ACC-WRN (ANAD) contracting office to assist in improving local businesses' opportunities in doing business with the Federal government. This workshop will assist businesses in understanding government-industry partnerships, Small Business joint ventures arrangements, and the Small Business mentorship – protégé program.

Speaker: Ms. Bonds, Chief, ACC-WRN (ANAD) Strategic Programs Division

Ms. Bonds is a highly respected contracting subject matter expert on the Army partnering program, to include public-private partnering agreements. Ms. Bonds has over 22 years of government contracting experience.
