Dedicated to your small business' productivity and security, the Small Business Development Center at Troy University cordially invites you to attend its newest training program **Decode: Unraveling the Secret World of Computers & Technology**.

Mario Johnson, of Mario Johnson IT Solutions, will teach you:

- Simple tricks and shortcuts to help improve office/employee productivity
- How to create your own in-house network
- DIY computer maintenance (potentially saving you hundreds or even thousands of dollars!)
- Tips on keeping your private information PRIVATE.

Mario Johnson has degrees in both Information Systems and Computer Science and more than 13 years' experience in the industry. He is Microsoft Certified as a Systems Administrator, Technology Specialist and Messaging Administrator. Learn more about Mario at his website [www.MarioJohnsonITSolutions.com](http://www.MarioJohnsonITSolutions.com).
