Subcontracting Opportunity Panel

Do you have questions about how to market yourself best to prime contractors for sub opportunities? Do you want to know what your target prime contractors are looking for in a sub arrangement? Do you want to know what your target prime contractors need to buy and what their small business target goals? This is your opportunity to find out! We will have several large prime contractors with contracts at area government agencies, in panel form, to answer your questions!

Government Procurement Matchmaker

Following the Subcontracting Opportunity Panel, we will begin our annual Matchmaker! We have several new supporters this year!
