Boots to Business Reboot is a two part training program that provides participants with an overview of business ownership as a career vocation, an outline of knowledge on the components of a business plan, a practical exercise in opportunity recognition, and an introduction to available public and private sector resources.

Part One is a one-day introduction to entrepreneurship course available to veterans of all eras. Service members, including veterans of the National Guard and Reserves – and their spouses, are also invited to attend. Course instruction is provided by SBA and a collection of partners that create a catalog of skilled business advisors.

Part Two is a six-week online course that covers Revenue Readiness, and Business Model to Business Plan.

Note: Participants must complete the one-day course to be eligible for the six-week online portion of the program.
